

Harba

Harba is an innovation-driven Danish startup digitalising and connecting the world's marinas and boaters.

We have developed an award-winning mobile app for boaters, a simple to use marina management software for harbour masters as well as various IoT hardware solutions to support both parties.

We have a mission to **make boating and running marinas a breeze - and have fun doing it! :)**

Symfony developer wanted!

Here at Harba, we strive to ensure that every team member feels empowered to be their best self. We have freedom to create, explore and innovate. We strive to create a work environment which is based on trust, high sense of ownership, support to one another, growth and, most importantly, fun.

Today, we need you on our team! Harba is looking for an ambitious Symfony Developer (mid) to work on an exciting project for leisure sailing industry.

Requirements:

- Experience with PHP web frameworks (preferably Symfony)
- Experience with angular/react, Git and Docker
- Experience working with relational databases
- Previous experience creating scalable applications
- Good in the English language - both written and verbal
- Experience with devops or wish to learn devops is a huge plus
- Final and most wanted skill - big desire to learn new stuff and learn fast!

We offer:

- Open startup environment to test and learn
- Having a big impact in company business and strategy
- Freedom to choose your own technologies you want to work with
- Young and innovation driven colleagues
- Flexible work hours & ability to work remotely
- Net salary (after tax) 1900 - 2400 EUR/month. Keep in mind that we are open to discuss a different salary based on your skills and competencies.

Passionate about building something awesome?
