

Symfony Backend Developer Wanted!

Position: Junior-Mid backend developer

Location: Vilnius, Lithuania

Harba is an innovation-driven Danish startup digitalizing and connecting the world's marinas and boaters.

We strive to ensure that every team member feels empowered to be their best self. We have the freedom to create, explore and innovate. We strive to create a work environment that is based on trust, a high sense of ownership, support to one another, growth and most importantly - fun.

Today, we need you on our team! Harba is looking for an ambitious Symfony Developer (junior-mid) to work on an exciting project for the leisure sailing industry.

You will make an impact by...

- Work on our core products building new integrations to different APIs at scale
- Help build new impactful features
- Help maintain our code
- Work as a team to ensure good coding standards and contribute to our technological and architectural decisions

Requirements:

- 2+ years of experience with PHP web frameworks (preferably Symfony)
- Understanding of OOP principles & good code design practices
- Experience working with relational databases
- Previous experience creating scalable applications
- Good English language skills - both written and verbal
- Experience with angular/react and Docker is a plus
- Final and most wanted skill - big desire to learn new stuff and learn fast!

We offer:

- Open startup environment to test and learn
- Having a big impact in company business and strategy
- Young and innovation driven colleagues
- Flexible work hours & ability to work remotely or from the office
- Net salary (after tax) 1600 - 2500 EUR/month. Keep in mind that we are open to discussing a different salary based on your skills and competencies.

Passionate about building something awesome? Let's talk!
